

Cubitt Town Primary School

Dear Canary Wharf Group

I would like to extend our sincere thanks for the donation of the artwork Atmospheric Particles by Rachel Champion, as well as organising the delivery and installation of the work. It is a beautiful piece of artwork which not only looks good on our school grounds but also sends a sound message around the issue of air pollution. A concept that we are very aware of on the Isle of Dogs.

We will be using this work to support our curriculum - both showing how artwork can take on many different forms but also to aid the subject of the effect industry has on the environment which fits really well with our geography curriculum but also with our school value of **Care**.

The children are also intrigued with the idea that this piece is self-irrigating and are looking at how this works. (DT /Science)

We have ensured that the artwork is placed by our school fence so that people passing by get the pleasure of being able to view the artwork. Our children are most impressed that they have a piece of artwork in their school that has been created for and that resided in Canary Wharf. It is a generous gift and we look forward to having it on display for years to come. Ms Bruce (Headteacher)
